Nov. 15th 1903.

My dear ~~dear~~ Mother

The drawings arrived

all right. Yesterday Mrs S. & I started
for the Mumbles in the morning, when we
got to the slip, it simply poured in buckets
full.

WINCHESTER HOUSE,
SWANSEA

& Mrs L. was able to 'Snap' some boats from the Pier. Gythi meanwhile keeping up a most exasperating howl because it was cold & he didn't like seeing the water between the cracks of the boards. I didn't go to Jersey Marine on Mon. afterwards as it turned out rather wet in fact the weather has been rather unkind the whole week, however I hope to get some rides next week.

Bye the way you might ask Geoffrey or somebody to get me half yard of best square catapult elastic, you can't get it here.

This morning Mrs L. & I went for a walk on the top the hill behind Swansea (fine view) & got drenched in a regular April shower

I haven't been doing much painting as I am generally out most of the morning I don't feel up to standing much in the afternoon.

Dr. & Mrs Brooks are here to afternoon tea so I suppose I shall have to go in & Pow-wow with them now. There's no news 'what ever' except that I'm all right & kicking. Hope you are the same all of you.

Love & other stuff.
Your loving Son
Brian.

in putting it right again.

Dr. L. says I ought to have an exerciser
to keep my shoulders back, could you send
one like yours? not a heavy Sandow one.
